Whale Watching  
**TOUR**

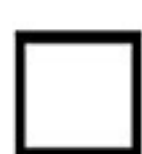

Between **June and October**, humpback whales travel from antarcics islands to Brazil and give us one of the **best natural show** of the world!

With a **95% sighting rate** during the 2022 whale season, ECOSUL TURISMO takes you on a **3 hours offshore** whale watching tour in Ilhéus, Bahia, Brazil.

Our excellent numbers are due to two exclusive advantages of ECOSUL TURISMO: **our 100% biologists team**; and the **exceptional geography of Ilhéus**. Here we have the shortest shortest continental shelf of Brazil! Only 12 miles from the shore. A specificity that induce a **high concentration of the whales, very close to the coast**.

Every day, from June to October, we have two departures a day at **7:30 am and 1:00 pm** for up to **6 people**. We accept children from 55 pounds (25 kg). We offer water and fruit on board. We advise you to wear clothes adapted, such as a beach clothes.

**LIVE YOUR  
DREAM NOW!**

**Bottlenose dolphin**  
*Tursiops truncatus*

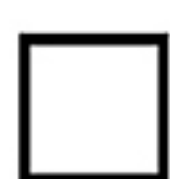

**Guyana dolphin**  
*Sotalia guianensis*

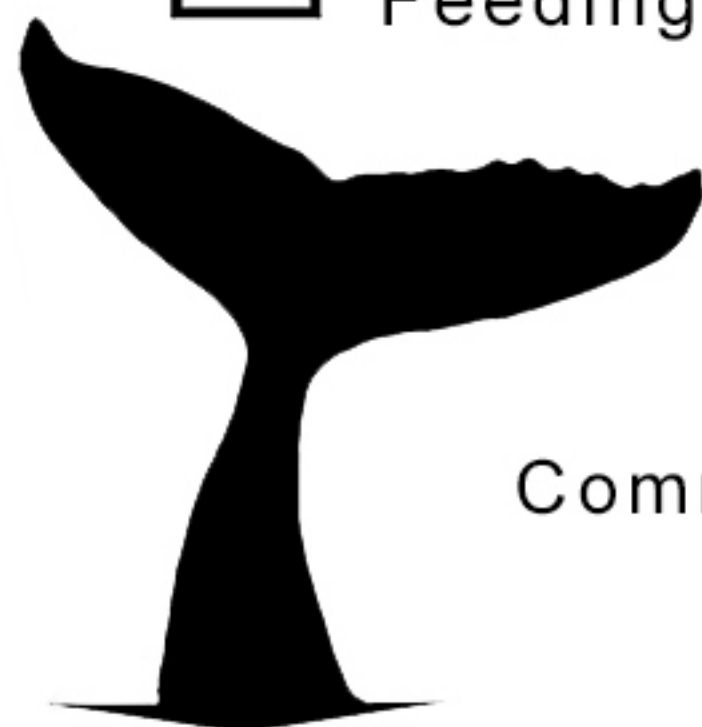

# Sighting Record

Check your list of behavior and species you encountered during your whale watching tour with Ecosul Turismo

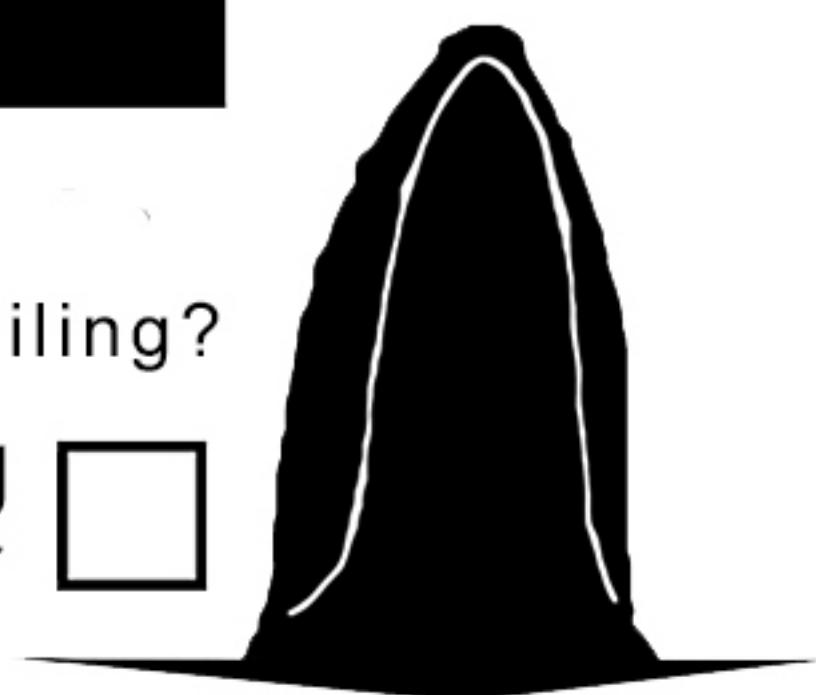

## Caudal exposure

Feeding the calf? Singing better? Sailing?

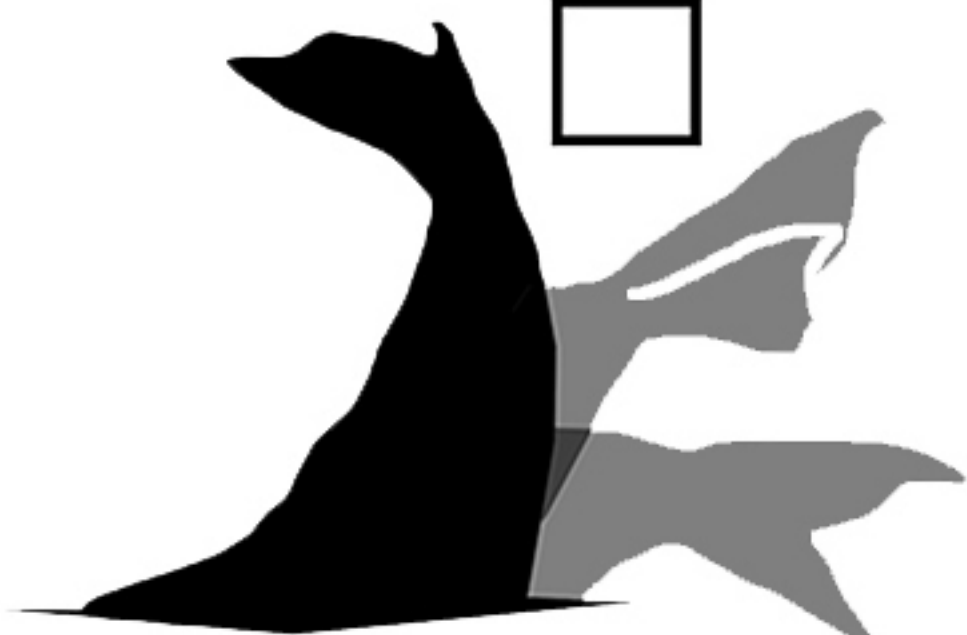

## Spy-hopping

Looking out of water

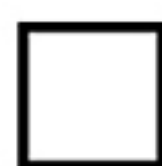

## Tail slap

Communication? Aggression?

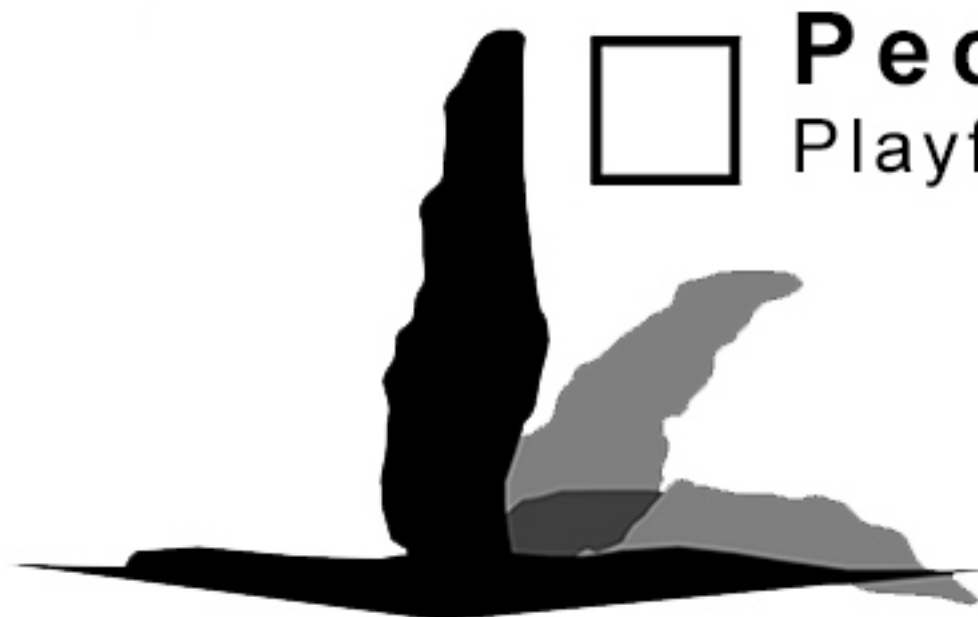

## Breathing

Calf breathes three times per minute, six times more than an adult

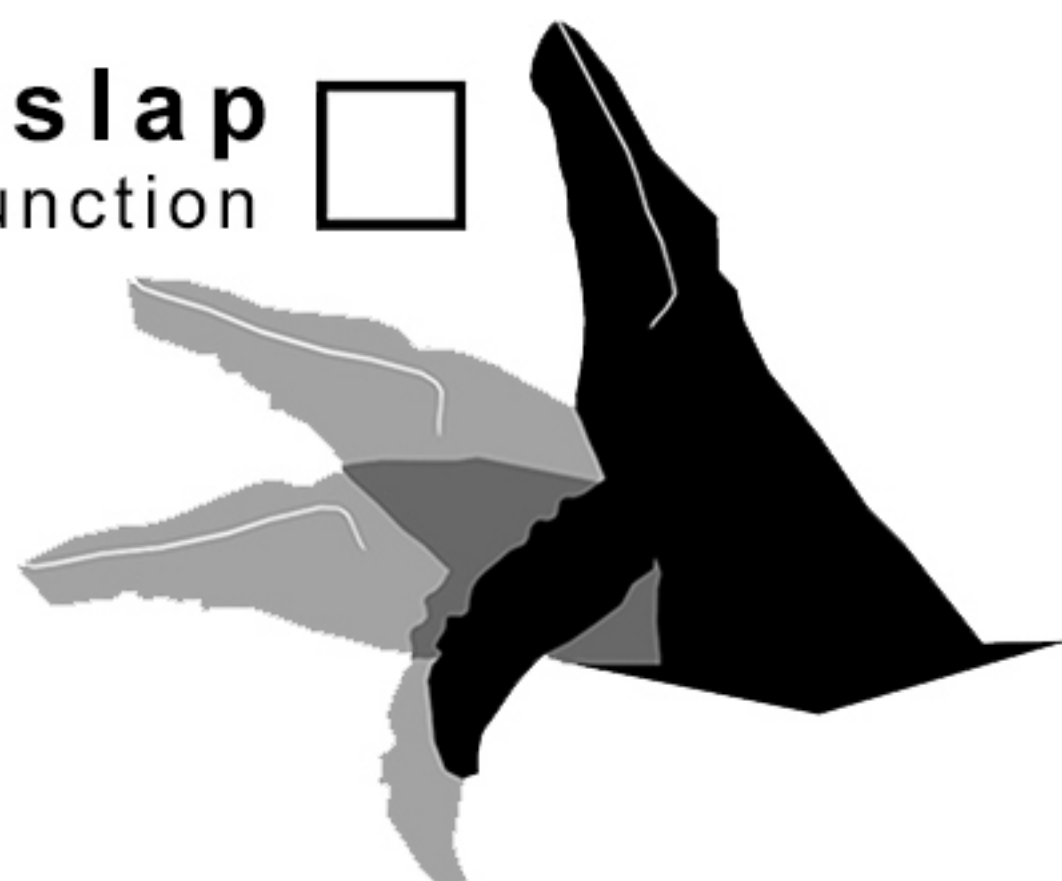

## Pectoral slap

Playful? To get attention?

## Head slap

Unknown function

## Breaching

The whale jumps out of the water to get attention, play or take off parasites

## Female and Calf

The mother whale rests, the calf is more playful

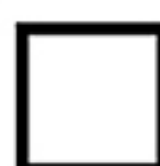

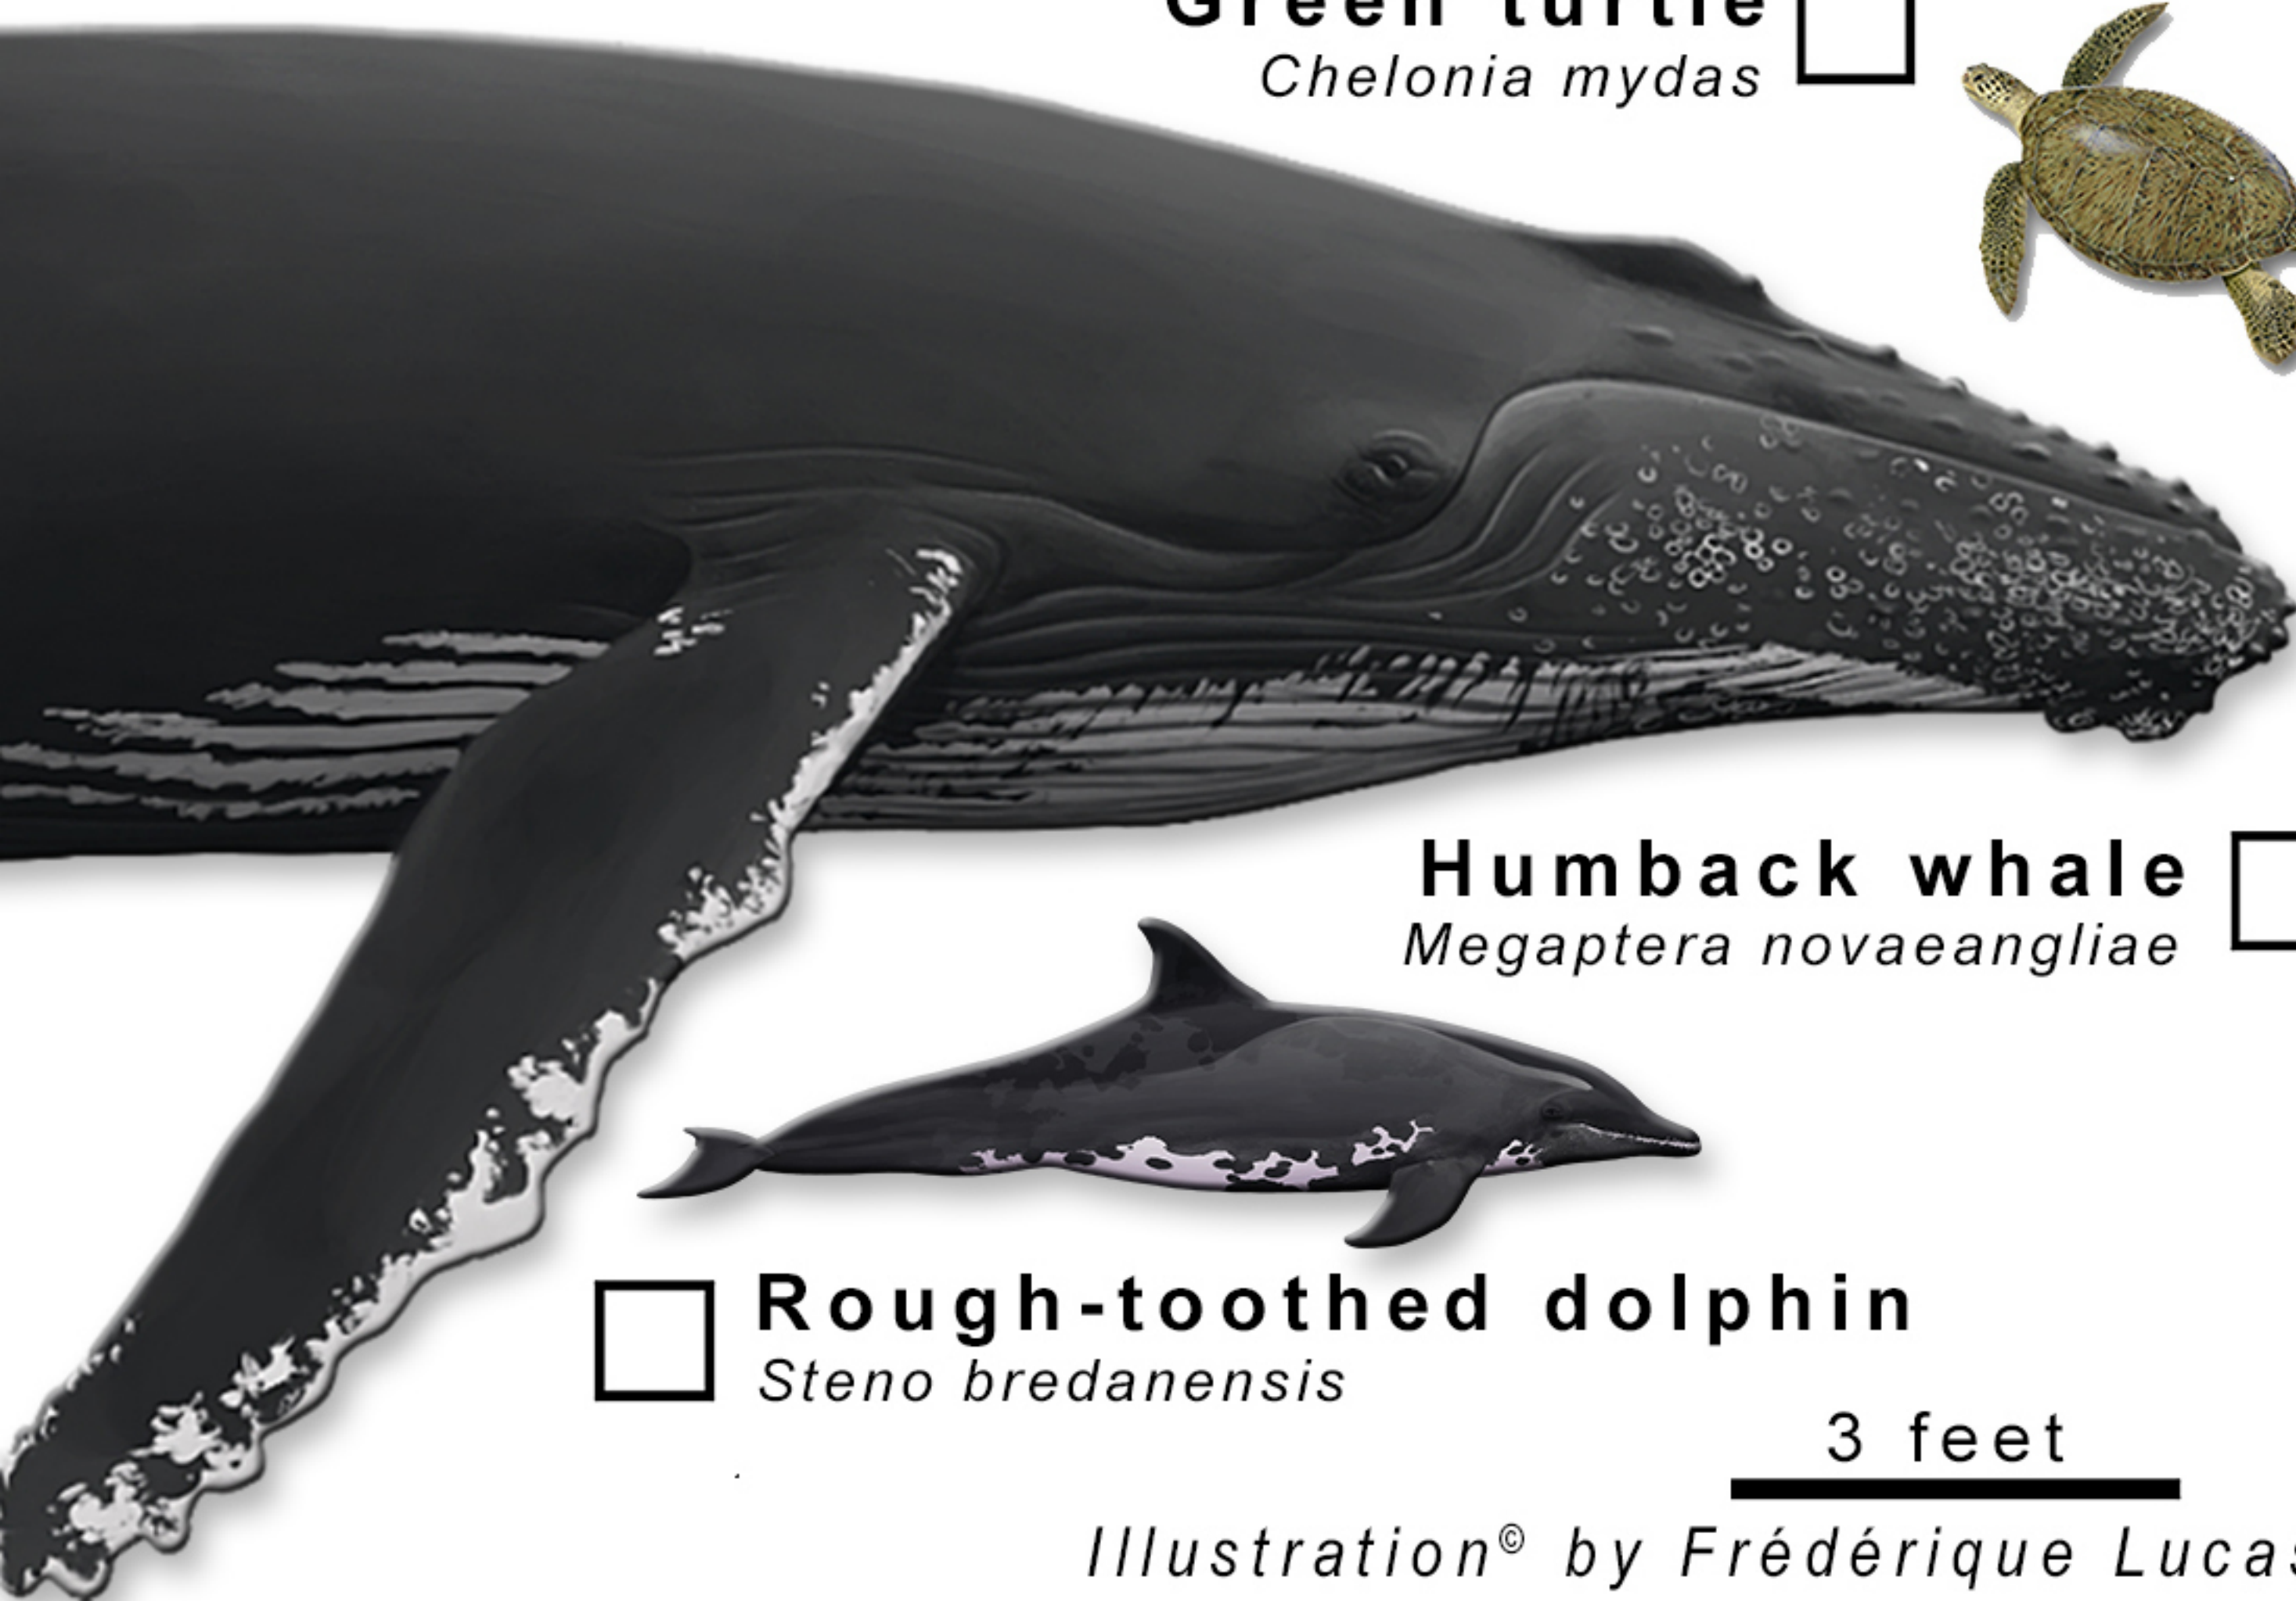

## Green turtle

*Chelonia mydas*

## Humbback whale

*Megaptera novaeangliae*

## Rough-toothed dolphin

*Steno bredanensis*

3 feet
